INTRODUCTION

This itinerary focuses on the glaciers, fjords and Northern Lights of northeast Greenland to discover some of the planet's last pristine wilderness locations.

You may discover a variety of strikingly rugged landscapes while cruising along the remote north-east coast of Greenland, which is home to the world's largest fjord system. Since you will be in an area where the Northern Lights are frequently visible at night, you may even be able to end a day of Arctic exploration with a spectacular display of the Aurora borealis. Experience Greenlandic culture firsthand in Ittoggortoormiit, explore historic Thule sites, and be in awe of the majesty of gigantic icebergs set against a breathtaking mountain backdrop while immersed in the wild beauty of the Arctic.

The team will also search for the seabirds soaring around your ship, as well as the whales that frequent the waters here.

DAY 4: Exploring Northeast Greenland - Days 4 to

During your tour of Greenland's remote northeast coast, you'll enjoy Zodiac cruises and shore visits to several locations. We'll also keep an eye out for grazing muskoxen, as 40 percent of the world's population lives in Northeast Greenland National Park. At the entrance of the sound is East Greenland's most northerly community, Ittoggortoormiit, where you may spend time interacting with the Inuit people and learning about their way of life. You may also have a 3 chance to see the Northern Lights here if the skies are clear. Magnificent vistas also await at Kong Oscar Fjord, with possible landings at Ella Ø, renowned for its rugged cliffs and ice-choked waters, and flower-rich Botanikerbugt, on Ymer Ø.
